## Mega Freeze® Products

### **Application:** Industrial, Commercial, and Residential Freezer systems:

The Mega Freeze filter reduces moisture in the air. This helps the freezer unit do a better and more efficient job. When humidity is reduced, temperatures are reduced. Reduced icing on floors, ceilings, and coils.

**Installation:** Designed to install inside walk-in freezers behind the existing evaporators. Normally, placement should be halfway between the wall and the evaporator. Also place filters over the entrance door if there is heavy traffic in and out of the freezer unit. Installation instructions provided with unit.

### **Shipping Weight:**

Mega Freeze-20 = 20lb  
Mega Freeze-10 = 10lb  
Mega Freeze-PTAC = 8lb

**Warranty:** All Mega Freeze products come with a 90-day Money-Back Guarantee.

### **Dimensions:**

Mega Freeze 20lb: L30" X H12" X D3"  
Mega Freeze 10lb: L15" X H12" X D3"  
Mega Freeze PTAC: L23" X H4.5" X D3"

### **Manufacturer's Qualifications**

Over a decade of experience

**Mounting:** Hardware provided.

### **Mega Freeze Models**

**Mega Freeze 10-Lb:** Designed to treat 500 cubic feet of freezer space.

**Mega Freeze 20Lb:** Industrial/Commercial freezers. Designed to treat up to 1000 cubic feet of freezer space.

**Mega Freeze PTAC:** Designed to treat up to 500 cubic feet of freezer space.

**ROI:** Drier air is colder air so the thermostat can be turned up. This **saves energy**. Defrost cycles can also be reduced (example; if freeze unit is set to defrost four times a day re-set to two times a day. A dollar **saved** is a **dollar earned!**)

**Maintenance:** Remove once a year and rejuvenate by placing in direct sun light for 6-8 hours. May also rejuvenate by placing in a low temperature oven for 1 - 2 hours (150 degree F.)

Because we are constantly seeking to improve our products, specifications are subject to change at any time.
