## Mega Fresh® Products

**Application:** *Industrial and Commercial Fruit and Vegetable Coolers and cases.*

The Mega Fresh® Air filter reduces ethylene gas in the air. Ethylene gas is an odorless, colorless gas that is naturally produced by the ripening process. Ethylene causes premature ripening and decay of fresh fruits and vegetables. By eliminating ethylene gas, Mega Fresh® dramatically **increases the shelf life of produce.**

**Installation:** Designed for use in produce coolers and counters. Installation instructions provided with each filter.

**Shipping Weight:**

- Mega Fresh-20 = 20lb
- Mega Fresh-10 = 10lb
- Mega Fresh-PTAC = 8Lb

**Warranty:** All Mega Fresh® products come with a 90-day Money-Back Guarantee.

**Dimensions:**

- 20lb: L30" X H12" X D3"
- 10lb: L15" X H12" X D3"
- PTAC: L23" X H4.5" X D3"

**Manufacturer's Qualifications**  
Over a decade of experience

**Mounting:** Hardware provided.

**Mega Fresh Models**

**Mega Fresh 10-Lb:** Designed to treat up to 500 cubic feet of cooler space.

**Mega Fresh 20Lb:** Designed to treat up to 1000 cubic feet of cooler space.

**Mega Fresh PTAC:** Designed to treat up to 500 cubic feet of cooler space.

**ROI:** Less Ethylene Gas means longer lasting, fresher produce. This means **less shrink** and **more dollars** to the bottom line. A dollar **saved** is a dollar **earned!**

**Maintenance:** Remove once a year and rejuvenate by placing in direct sun light for 6-8 hours. May also rejuvenate by placing in a low temperature oven for 1 - 2 hours (150 degree F.)
