Odor Stop® Products

Application: *Industrial, Residential and Commercial.*

The World Health Organization estimates that one out of every three workers may be in a work place environment that is making them sick. The Odor Stop® Air filter adsorbs odors instead of masking the odor as do air fresher products. The odor stop products easily eliminate odors that are normally hard to control. Odors often expose serious, underlying problems with air quality, but because they can't be seen they are often ignored or temporarily covered up with air fresher products.

Installation: See installation instructions found inside the shipping carton.

Shipping Weight:

- Odor Stop-20 = 20lb
- Odor Stop-10 = 10lb
- Odor Stop-PTAC = 8Lb

Warranty: All Odor Stop® products come with a 90-day Money-Back Guarantee.

Dimensions:

- 20lb: L30" X H12" X D3"
- 10lb: L15" X H12" X D3"
- PTAC: L23" X H4.5" X D3"

Manufacturer's Qualifications

Over a decade of experience

Mounting: Hardware provided.

Odor Stop® Models

Odor Stop 10-Lb: Designed to treat up to 2 1/2 tons of air conditioning.

Odor Stop 20Lb: Designed to treat up to 5 tons of air conditioning.

Odor Stop PTAC: Designed to install near the return air of PTAC air conditioning units.

ROI: Removing harmful vapors, odors and gases from the atmosphere helps to protect the health of persons breathing the air. There is no better return on investment!

Maintenance: Clean the filter once a year, or whenever odors return, by soaking in a salt-water solution (6 ounces salt for every 60 ounces of water) and a small amount of soap. Rinse with clear water, shake dry and reinstall

Because we are constantly seeking to improve our products, specifications are subject to change at any time.
